

HERCULES

Automatic Linear Sealing Machine with or without MAP

HERCULES with its compact dimensions, unique tray conveying system and flexibility in feeding & output directions, may easily be integrated into existing production lines.

Tray feeding: in single line (directly from customer's production)

Tray Automatic MAP sealing: Double configuration: 2 trays at a time.

Tray output: in single line (onto customer's conveyor).

HERCULES is the ultimate answer for MAP high speed quality packaging.

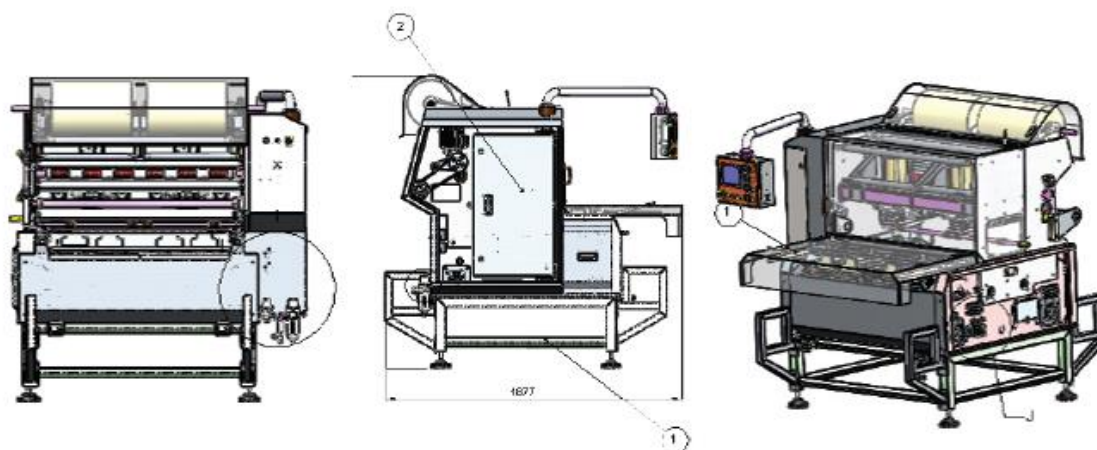

HERCULES can easily be used as a basic tray sealer (without modified atmosphere).

In this mode (easily switched on/off) production rate is further enhanced .

Multiple sealing heads can be used for various trays

Easy changeover: change only sealing head and film roll in less than 15 minutes!
