Dual Ovenable & Microwaveable packaging

 On-tray®

MCP Company Profile

Advanced High Quality Packaging

MCP Performance Plastic Ltd. is a dynamic developer and manufacturer of advanced custom co-extruded thermoplastics for a wide range of turnkey packaging solutions mainly for the food industry.

MCP manufactures three major types of barrier structures: CPET (Crystallized PET), APET (Amorphous PET) and PP (Polypropylene). The MCP facility includes extrusion of the resin, thermoforming, new product and customized design, all of which adhere to the highest quality standards.

MCP manufactures trays suitable for the full range of temperatures, namely freezing, refrigeration shelf-stable, ovenable and microwave heating applications. This tray range comprises of semi-rigid trays with snap-on lids to which suitable lidding films can be sealed to the trays.

At MCP we focus on production excellence and cost efficiency. MCP is recognized for its very high quality and outstanding customer service.

MCP produces a variety of over 200 tray designs suitable for the Ready Meal market, encompassing the full cycle of use from frozen product to oven and/or microwave heating through to the enjoyment of a hot meal. The most common applications include frozen and fresh meals sold in the retail market, bakeries, airlines, and large institutions such as schools.

Innovation - MCP invests over 10% of its turnover in R&D. We offer our customers a full turnkey project all the way from design to prototype to final production of trays. In addition, MCP produces colored CPET trays that provide a unique marketing and branding opportunity in a competitive market.

Recyclable and Environmentally Friendly Packaging

MCP places particular emphasis on recyclable and environmentally friendly packaging materials in accordance with both European and US market demands. The company recycles all waste materials that are extruded and formed during the manufacturing processes. The scrap is reground and introduced back into the extrusion process.

MCP is committed to promoting sustainability and dedicated to an environmental vision for packaging, which includes reducing the environmental impact and ecological footprint of all our activities.

Integrated Quality Management

MCP enforces stringent international and national regulations to ensure the highest functional safety of our packaging. All raw materials comply with EU Directives and the US FDA Code of Federal Regulation Title 21 and the Israeli Standard 5113.

MCP quality management is certified for the following standards: ISO 9001:2008 (Quality System Management); ISO 14001:2004 (Environmental Protection); OHSAS 18001:2007 (Occupational Health & Safety); ISO 22000:2005 (Food Safety Management); Procedure BRC/IOP Issue 3: January 2008 (Food Safety Management); HACCP (according to the principles of the Codex Alimentarius); SA 8000:2008 (Social Accountability).

We love what we do and do our best to be loved by our customers.

MCP Products Profile

C-PET On-Tray®

Dual ovenable and microwaveable. Since the service temperature of C-PET On-Tray® withstands temperatures from -40°C to +220°C, it is excellent for use in freezers, microwaves, conventional and institutional ovens.

The C-PET barrier is for shelf-life purposes (not suitable for use in toaster ovens or broilers).

A-PET On-Tray®

For cold and ambient temperature food products. Excellent barrier for MAP system. On-Tray® is offered in clear A-PET.

Service temperature is from -40°C to +65°C.

PP On-Tray®

Microwaveable PP trays are the perfect solution for use in microwaves. Service temperature is from 0°C to +125°C. For special orders, products can reach deep-freeze and/or high barrier. Microwave only.

C-PET On-Tray®

Double utilisation: four traditionnel et micro-ondes. Le C-PET ON-TRAY TM résiste aux températures de service de -40°C à +220°C, il est parfaitement adapté aux conditions des compartiments réfrigérants, fours à micro-ondes, fours conventionnels et industriels. La barrière du C-PET est prévue en fonction de la durée de mise en rayonnage (le C-PET n'est pas approprié à l'usage des rôtissoires électriques ou fours grille-pain).

A-PET On-Tray®

Destiné aux produits alimentaires à températures froides ou ambiantes. Une barrière parfaite pour le système MAP. ON-TRAY TM est proposé également en A-PET transparent.

Températures de service: de -40°C à +65°C.

PP On-Tray®

Les barquettes en PP offrent une solution idéale pour un usage en fours à micro-ondes. Températures de service: de 0°C à +125°C. Si besoin, ces barquettes peuvent être congelés (commande spéciale). Utilisation en micro-ondes uniquement, ne convient pas aux fours traditionnels.

C-PET On-Tray®

Für Backofen und Mikrowelle: Da C-PET On Tray Temperaturen standhält im Bereich von -40°C bis 220°C, eignet es sich hervorragend zur Tiefkühlung und für den Gebrauch in Mikrowellen- und herkömmlichen Backöfen sowie Öfen in Großküchen. Die C-Pet-Barriere dient der Verlängerung der Lagerfähigkeit (nicht geeignet für den Gebrauch im Toaster oder Grill).

A-PET On-Tray®

Für gekühlte Nahrungsmittel, die eine niedrige Umgebungstemperatur erfordern. Ausgezeichnete Beschichtung für den Einsatz von MAP. On-Tray wird in transparentem A-PET angeboten; die Gebrauchstemperatur reicht von -40°C bis 65°C.

PP On-Tray®

Mikrowellentaugliche Polypropylen-Schalen sind die perfekte Lösung für den Einsatz im Mikrowellenofen im Bereich von 0°C bis 125°C. Sondermodelle für den Tiefkühleinsatz und / oder mit hoher Barriere sind möglich. Ausschließlich für den Einsatz im Mikrowellenofen.

C-PET On-Tray®

Doble uso horno y microondas. Dada la resistencia del C-PET On-Tray TM que soporta temperaturas desde -40°C a +220°C, este producto es excelente para ser usado en congeladores, microondas y hornos convencionales. La barrera C-PET da una mayor caducidad a los productos (este producto no puede ser usado en tostadoras, ni en parrillas eléctricas).

A-PET On-Tray®

Para productos refrigerados y a temperaturas ambiente. Excelente barrera para el sistema MAP. Las bandejas On-Tray TM en A-PET se ofrecen en transparente. Soportan temperaturas desde -40°C a +65°C.

PP On-Tray®

Los envases en PP son una óptima solución para uso en microondas. Soportan temperaturas de 0°C a 125°C. Este producto puede someterse a la ultra congelación según solicitud. Usar sólo en microondas.

C-PET On-Tray®

Doppio uso forno e microonde. Vista la resistenza termale dei C-PET On-Tray TM che va da -40°C a +220°C questo prodotto e' perfetto per l'uso in un freezer, forno a microonde e nei forni tradizionali (istituzionali). La barriera C-PET viene messa per garantire l'osservazione della data di scadenza. Questo prodotto non puo' essere usato in un tostapane o in un scaldacqua.

A-PET On-Tray®

Per i prodotti freddi o quelli con la temperatura dell'ambiente. E' una barriera eccellente per il sistema MAP. On-Tray TM viene offerto in A-PET trasparente. Resistenza termica: da -40°C a + 65°C.

PP On-Tray®

I vassoi di PP e' un'ottima soluzione per l'uso in forno a microonde. La resistenza termica da 0°C fino a 125°C. Su richiesta specifica questo prodotto puo' essere adattato alla surgelazione profonda. Da usare solo in forno a microonde.

C-PET On-Tray®

Κατάλληλο για φούρνο και μικροκύματα. Αντέχοντας σε θερμοκρασίες από -40°C μέχρι +220°C, είναι ιδανικά για χρήση σε κατάψυξη, μικροκύματα, συμβατικούς και επαγγελματικούς φούρνους. Το C-PET σαν υλικό, διαθέτει υψηλή φραγή αερίων (high barrier) για συσκευασία μακράς διάρκειας. Δεν είναι κατάλληλο για τοστιέρες ή αντιστάσεις.

A-PET On-Tray®

Για προϊόντα σε κρύες θερμοκρασίες και θερμοκρασία περιβάλλοντος. Εξαιρετική φραγή αερίων για συσκευασία τροποποιημένης ατμόσφαιρας (MAP). Τα On-Tray σκεύη προσφέρονται σε διάφανο A-PET. Αντέχουν σε θερμοκρασίες μεταξύ -40°C και +65°C.

PP On-Tray®

Τα σκεύη PP είναι η ιδανική επιλογή για χρήση σε μικροκύματα. Αντέχουν σε θερμοκρασίες από 0°C έως και +125°C. Με ειδική παραγγελία, τα σκεύη μπορούν να χρησιμοποιηθούν σε βαθειά κατάψυξη.

C-PET On-Tray®

C-PET используется для разогрева/выпечки в духовках и микроволновых печах. Подходит также для работы в промышленных печах. Отлично выдерживает глубокую заморозку. Температурный режим C-PET: от -40°C до +220°C. Материал C-PET имеет барьерные свойства, дающие возможность увеличения сроков годности продуктов. C-PET не подходит для разогрева открытыми тэнами (гриль, тостер-печи и т.п.).

A-PET On-Tray®

Внешний вид - абсолютно прозрачный. A-PET подходит для хранения продуктов в охлажденном виде и при комнатной температуре. Отлично выдерживает глубокую заморозку. Температурный режим A-PET: от -40°C до +65°C. Материал A-PET имеет барьерные свойства, дающие возможность увеличения сроков годности продуктов.

PP On-Tray®

Материал отлично подходит для разогрева в микроволновых печах (но не годится для других видов печей и духовок). Температурный режим PP: от 0°C до +125°C. Специальная версия лотков/емкостей PP изготавливается для возможности стерилизации продуктов в автоклавах.

PP On-Tray®

電子レンジ用のポリプロピレン製トレイは電子レンジで使用するのに最適です。サービス温度は0℃ ～ 125℃です。特別注文の場合は、急速冷凍冷蔵庫向けにすることができます。電子レンジ専用。

א.מ.ס.י.פ.י. פרפורמנס פלסטיק בע"מ היא חברה מהמובילות בעולם בתחום פיתוח וייצור אריזות מזון מת־קדמות שעולות בקנה אחד עם מגמות שימור הסביבה ואיכות המוצר. השימוש בטכנולוגיות חדשניות הופך את חברת א.מ.ס.י.פ.י לחלוצה בשדה המחקר והפיתוח של מו־צרי CPET, PET ו-PP. מהפיתוחים הבולטים והייחודיים של א.מ.ס.י.פ.י הוא אריזות מזון שניתן להוציא מההקפאה הישר למיקרוגל או לתנור האפיה.

א.מ.ס.י.פ.י מתמחה מזה שנים רבות במתן פתרונות אריזה כוללים לתעשיית הארוחות המוכנות והשוק המוסדי.

C-PET On-Tray®

אריזת C-PET מגשית שניתן להשתמש בה הן במיקרוגל והן בתנור אפיה סטנדרטי.

מאחר וטמפרטורת ההגשה של מגשית ה-C-PET עומדת בטמפרטורות מ-40℃ ועד +220℃, היא מצויינת לשימוש במקפיא, במיקרוגל ובתנור אפיה ביתי או תעשייתי.

תהליך ייצור מוצרי ה C-PET מאפשר להם חיי מדף ארוכים ביותר; עם זאת הם אינם מתאימים לשימוש בטוסטר-אובן או על גבי אש חשופה (גריל וכד').

A-PET On-Tray®

אריזת PET מגשית המתאימה למוצרי מזון בטמפרטורה נמוכה (קירור) ו/או בטמפרטורת חדר. אטימות גבוהה ביותר לחדירת אויר או גז בתנאי חדר או לאחר שימוש (ח־מצון) במערכת אוירה מבוקרת (MAP system). המגשית מיוצרת מחומר A-PET שקוף וטובה להגשה בטמפרטורות מ-40℃ עד +65℃.

PP On-Tray®

אריזת PP מגשית PP הינה התשובה המושלמת לשימוש במי־קרוגל. טמפרטורת ההגשה שלה נעה בין 0℃ ל-+125℃. בהזמנות מיוחדות, יכול מוצר זה לעמוד גם בתנאי הקפאה עמוקה.

MCP On-Tray® Products are sold and serviced worldwide through a dynamic marketing and logistic network, offering full support and solutions for the special needs of all its customers, both large and small, in diverse cultural settings.
